Iridium GO!® Fixed Installation Kit

Everything you need in one package

Transform your communications with a valuable add-on that makes Iridium GO!® even more versatile on land and at sea. The Iridium GO! Fixed Installation Kit can be paired with any Iridium GO! device for smooth connectivity both inside and outdoors. Whether you're a sailor, fisherman, remote vacationer or NGO worker, the Iridium GO! Fixed Installation Kit will help you stay connected regardless of your location.

AT SEA

For remote situations when you cannot be outside, but need to stay connected, the Iridium GO! Fixed Installation Kit is your solution. Now, a wide variety of mariners can stay connected from within the protected areas of their vessels by using the external antenna. Crew can access the latest weather reports to stay up-to-date on changing conditions. Users on land and at sea can connect via voice, text, email and social media to stay in touch with their office, family and friends, all without leaving the comfort of their cabin.

ON LAND

Remote home owners and vacationers have the flexibility to connect wherever their travels may take them. Iridium GO! can easily be tossed in a backpack for day trips or mounted on a wall for use in buildings and secluded cabins. In emergency situations, lone aid workers can make phone calls and send text messages to help coordinate humanitarian efforts, even if the local infrastructure has been compromised.

The Iridium GO! Fixed Installation Kit offers affordable accessories designed specifically for marine and land applications.
